NARRATOR (V.O.)

You're in the bedroom, the lights are dimmed and clothes are coming off with ease. Things are getting hot and heavy, and you're ready to get intimate. Sometimes, though, the rest of our body doesn't get the memo...

HER

I'm not feeling anything

HIM

It's like a numb limb honey

HER

You're not even hard?

HIM

Just play with it a little, little willy will come to life if I focus

HER

Ugh

NARRATOR (V.O.)

As we get older, it's increasingly normal for men to lose that energy, that drive, that blood flow. You know who doesn't have to worry about a limp third leg in the bedroom? Men who use Genghis Khan condoms.

FRIEND

Yeah me and the Mrs. were heading for divorce too, but since I started using these condoms she can't get enough of me

HIM

They're that good? Maybe I should give them a try

FRIEND

It's like I'm a primal savage conquering everything in my path

NARRATOR (V.O.)

Genghis Khan condoms are fortified with a special seal technology that releases when having sex.

(MORE)

NARRATOR (V.O.) (CONT'D)  
The seal activates a mix of testosterone, amphetamines and horse DNA that spread throughout the penis, giving you the energy and untethered lust to pillage in the bedroom for hours on end.

HER  
Woah look at you! That was AMAZING.  
What happened?

HIM  
It's not me babe, it's the Genghis Khan condom.

HER  
Wow those really work! You were like a different person down there!

HIM  
I know! I'm not in control, it does what it wants and takes what it wants now.

HER  
Is it just me, or is it bigger now too?

HIM  
We can thank the horse DNA for that.

NARRATOR (V.O.)  
When you use Genghis Khan condoms, you're harnessing the energy of a man who conquered most of the known world. You won't just be a lover - you'll be a sexual conqueror.

HER  
Before my hubby started using Genghis Kahn condoms, he was a dead fish in the bedroom. No life, no excitement and frankly, no fun. Now, when we have sex, I can feel the rage of a war monger ravaging my insides - these condoms saved our marriage.

NARRATOR  
Studies show that over 16 million men in Asia have Genghis Khan DNA running through their bodies.

(MORE)

## NARRATOR (CONT'D)

We harnessed that sex drive for those men out there who may want kids with the special edition Genghis Khan Escape Pod condoms. With the simple touch of the shaft, the top part of the condom will blast off after ejaculation, leaving you and your lover with a better chance of conception. It's true what they say - with Genghis Khan condoms you have the power to repopulate the planet.

## OLDER MAN

I'm 58 and my wife is 56, and thought I was too old to have more kids. I accidentally bought Genghis Khan Escape Pod condoms at the store, and now my wife is pregnant with octuplets. I can't wait to see the look on my 30-year-old son's face when I tell him he has a new litter of brothers and sisters on the way.

## NARRATOR (V.O.)

So, next time you need a little extra spark in the bedroom, ask the store clerk for Genghis Khan condoms. He'll know you mean business.

## NARRATOR DISCLAIMER (V.O.)

Genghis Khan condoms are not approved by the FDA, CDC or any medical organization. They are a product of Mi Phuck Yu Enterprises, and are manufactured out of a rural farm in Mongolia. Side effects may include an erection that lasts forever, diarrhea, heart palpitations, profuse sweating, unhinged rage and an acute need to conquer Asia. Do not ask your doctor or medical provider if Genghis Khan condoms are right for you, because they will most certainly say no.

## HIM

Thank you Genghis Khan condoms!

NARRATOR  
Genghis Khan condoms: Fuck Mas.
